

HEALTH OFFICE UPDATE:

Physicals for sports participants and students in grades 2 and 4 will be done on November 2, and periodically throughout the school year. These exams are mandated by the state and may be done by the students own medical provider. A copy of the exam **MUST** then be forwarded to the school nurse for the student's health record. Male students are routinely screened for possible hernias during the physical exam. If you prefer that a hernia exam not be done by the school physician, or if you prefer to have another adult present with the physician at the exam, please notify the school nurse of your preference.
